Web Design Essentials Quiz

 **Challenge Alert for Web Designers & Developers!** 

Dive into our latest #WebDesignQuiz and test your knowledge on #HTML, #CSS, and #JavaScript. Whether you're just starting out or you're a seasoned pro, this quiz is a great way to see where you stand and sharpen your skills.  

Why Take Our Quiz?

-  Refresh your web design and development fundamentals.
-  Learn something new or reinforce your existing knowledge.
-  Engage with the #TechCommunity and share your insights.

Topics Covered:

HTML elements and semantics

CSS styling, positioning, and the box model

JavaScript basics, arrays, and functions

Share your score using #CodingChallenge #FrontEndDevelopment #LearnToCode #DigitalDesign #WebDevelopmentQuiz. Challenge your connections and let's foster a culture of continuous learning and professional growth in our amazing community!

👉 Ready to prove your web design mastery? Take the quiz and let us know how you did! Let's get those brains working and have some fun along the way. 🎉

Question 1: HTML Syntax

What does the <header> tag typically contain?

- A) Paragraph text
- B) Navigation links, logos, and header content
- C) Footer information
- D) Form elements

Answer: B) Navigation links, logos, and header content

Question 2: CSS Display Property

Which display value creates a block-level flex container?

- A) block
- B) flex
- C) inline
- D) inline-flex

Answer: B) flex

Question 3: JavaScript Variables

Which declaration is NOT correct in JavaScript?

- A) var name = 'Web Designer';
- B) let age = 30;
- C) const title = 'Developer';
- D) int id = 1;

Answer: D) `int id = 1;` (JavaScript does not use the `int` keyword for declaring variables.)

Question 4: HTML Forms

Which input type defines a dropdown selection list?

- A) text
- B) select
- C) dropdown
- D) list

Answer: B) select (Note: The `<select>` tag defines the dropdown, not the input type, but this is a common way to phrase the concept in quizzes.)

Question 5: CSS Positioning

Which position value does NOT take an element out of the normal document flow?

- A) absolute
- B) fixed
- C) relative
- D) static

Answer: D) static

Question 6: JavaScript Arrays

How do you remove the last element from an array named `items`?

- A) `items.pop();`
- B) `items.push();`
- C) `items.shift();`
- D) `items.remove();`

Answer: A) `items.pop();`

Question 7: CSS Selectors

Which selector matches an element based on its id attribute?

- A) .
- B) #
- C) :
- D) @

Answer: B) #

Question 8: HTML Semantic Tags

Which tag is used to define a section in a document?

- A) <section>
- B) <div>
- C)
- D) <segment>

Answer: A) <section>

Question 9: CSS Box Model

What does the CSS box model NOT include?

- A) Margin
- B) Padding
- C) Border
- D) Opacity

Answer: D) Opacity

Question 10: JavaScript Functions

What keyword is used to define a function in JavaScript?

- A) function
- B) method
- C) procedure
- D) action

Answer: A) function
